Aquantum Consulting Letter of Reference

To Whom It May Concern

We have engaged Aquantum Consulting as our Aquatic Consultant for past projects.

They completed site audits on a number of City of Hamilton indoor swimming pools complete with Reports on their evaluations. They also provided a complete design, tender documentation and project co-ordination for the Green Acres Pool Redevelopment project for the City of Hamilton which consisted of a 25 meter outdoor swimming pool, an additional multipurpose pool and splash pad.

Aquantum were on time, on budget and we, along with the Client, were satisfied with the services provided. We would recommend them for future aquatic projects.

Please do not hesitate to contact us if you require further information or clarification.

Sincerely,

Dan Austin, Dipl.T. (Arch.), CCCA
Senior Technologist
